Amstelveen gemeente registration form

For the EU/EEA or Switzerland and for non-EU citizens When you first arrived in the Netherlands, you were obliged to register at the BasisRegisterede Personen (BRP) of your city or city of residence. Similarly, when leaving the Netherlands, it is necessary to deregister. This is important as the budding (common) will have to remove your personal data in the same location. The municipality will also be required to inform the other government authorities of your departure. The first step is to report your scheduled departure for the stadhuis (communal hall). It is recommended to check with your municipality about the period of notice required to inform them that you intend to leave the country. The period of notice may vary from one municipality to another. For the municipality of the Hague, it is necessary to deregister and/or other family members no more than five days before the departure date. An adult member can deregister the whole family. This can be done in person or in writing. The municipality will then update your data. However, if not all family members residing in a single address are moving abroad, then all those leaving the Netherlands (including older or older children aged 16) must appear in person at the Municipal Public Service Department desk to report their move. If you intend to visit your municipality in person, you must carry your passport or other valid identity proof. You will probably be asked to give your current address and your future forwarding address. The deregistration process may vary slightly from one municipality to another. Some municipalities may request to complete a form that informs them of your imminent departure before visiting the municipality. If all the family members are leaving the country, yeshave the opportunity to inform the city of the room in writing. For the town of Den Haag, a letter may be sent containing the followingyour old and new address list of names of all family members the date of departure you must also provide a copy of your proof of identity with the letter once deregistered by the brp as a resident, your personal data will transfer to the non-resident part of the brp, the database of non-resident recordings (mi.) this is for people who no longer live in the low countries, or who live in the low countries for less than 4 months.
